

This is in regard to the FCC vote scheduled for Monday 6/2/03 re ending the 28-year old ban on ownership of newspapers and broadcast stations- television or radio - in the same market. If the FCC does this it will start us down the path to the end of democracy. Such a decision change should not be to the sole benefit of "greed" of larger entities as noted by stock prices rising - nearly doubling since mid-May, reflecting investor expectations that some stations will make an attractive takeover target. Please do not allow this to happen. Thank you.
